ENGLISH FOR COMPETITIVE EXAMINATIONS

Time: 1.5 hr

Maximum Marks: 20

I. Answer any one of the following questions in not more than 150 words. (1×3=3)

1. Define the various parts of speech?
2. Define Tenses? What are the various Tense Signs?

II. Answer the following questions. (1×5=5)

1. Read the passage and answer the following questions.

Secularism is the very soul of Indian society and the democracy. India has a tradition of co-existence, tolerance, cooperation, and mutual respect between all its social and religious groups. Islam came to India with Muslim conquerors. A large number of natives turned Muslims over the period and presently they make up the second-largest community of our nation. The contribution of Islam to Indian culture and civilisation has been spectacular. It added variety, colour and richness to native heritage. Islam enriched India with architectural wonders, the most precious being 'Tajmahal', the symbol of aesthetic India. Christianity had preceded Islam to India. St. Thomas, the twelve disciples of Christ arrived in India to preach his message when St. Peter was in Rome. Parsis came to India in the 5th century to escape from religious persecution in Iran. They brought Zoroastrianism. Jews sailed to India 2000 years ago to settle down in Mumbai, Pune, Kochi, and Delhi. Hinduism itself was a religious conglomeration of thousands of sects having distinct beliefs, rituals, customs, and practices. These nearly different religions branched out of it, namely, Buddhism, Jainism, and Sikhism having separate places of worship and holy books. In all, India remained a shining example of unity in diversity, nowhere else found in the world.

Honouring this eternal spirit of India, our constitution makers declared our nation to be a secular state without any discrimination. Although the people of

Our country are deeply religious yet they don't believe in it with an intolerance against other faiths. Even during the freedom struggle, the leaders who led it made resolutions a basic policy to rally all the people against the tyrants. The similar policy was fiercely strengthened by Mahatma Gandhi. Himself a deeply religious Hindu, he had great respect for all other religions and faiths.

To invade the Indian, the colonial rulers tried to destroy the life span of scriptures by using and shattering communal forces. Some of our people forgot that sacred tradition and joined in the hands of the British. Our country paid a terrible price for the lapse. India got divided into two nations and we lost the father of the nation, Mahatma Gandhi to the hands of a degenerated British who had no use for our secular legacy. It should teach us a lesson that only a secular spirit will keep India going.

1. What has been the tradition of India?
2. Which religions came in India from abroad?
3. What is the most precious gift of Islam to our country?
4. What has India been the shining example of?
5. What price India paid for its lapse as a nation?

III. Answer the following questions according to the directions provided (3-10-10)

4. That was really tough (use appropriate question tag)
5. Let us call it a day now, shall we? (identify the idiom and state its meaning)
6. Select appropriate idiom to fit the word 'realistic'

Verbs: Synonymic, Antonyms, Tense

7. John gave Devi an expensive gift yesterday. (convert into present tense)
8. Rearrange the jumbled words in given is meaningful sentence.

(Useful names/expressions as the recipient of some law being the League of Nations)

9. An assembly should promote the pursuit of real knowledge (convert the sentence)

AN INTRODUCTION TO LATEX- TYPESETTING MATHEMATICS

Certificate course
Offered by
Department of Mathematics
SES College, Sreekanthapuram

An Introduction to LATEX- Typesetting mathematics is a certificate course designed by department of mathematics for typesetting of mathematics equations.

Course OBJECTIVE

CO1: Typesetting of journal articles, technical report, thesis, book and slide presentation. Control over large document containing sectioning, cross-references, table and figures.

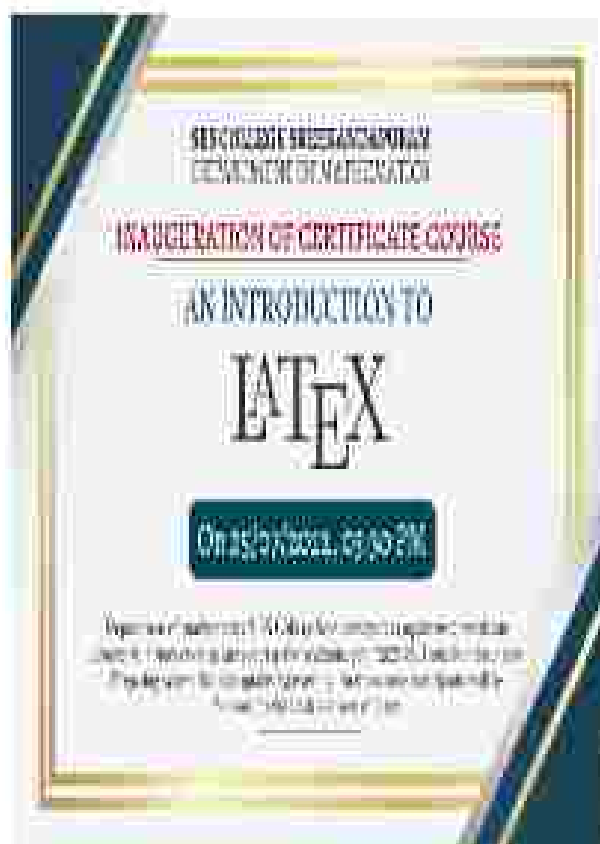

CO2: Typesetting of complex mathematical formulae. Advanced typesetting of mathematics. Automatic generation of table of contents, bibliographies and indexes.

Course coordinator: Sija c
Assistant professor
Department of mathematics

Place: Sreekanthapuram
Date : 08/06/2022

Certificate course - Latex

Department of mathematics conducted the inauguration of LATEX Course on 25/07/2022 principal Dr.Dominic Thomas inaugurated the Certificate course "An introduction to LATEX-Type setting mathematics". The main objective of the course is: Typesetting of complex mathematical formulae. LATEX is a document preparation system for high quality typesetting, which is preferably used for technical /scientific papers writing for journals by researchers, engineers and mathematicians at large. The typesetting system offers programmable writing features and extensive facilities for automating most aspects of typesetting. The course offered for III year Mathematics students. 24 students attend the course.

Inauguration of Certificate Course: "Soil and Water Analysis"

Inauguration of certificate course "Soil and Water Analysis" was done on 31st October 2022 through google meet platform from 10:45-11:45am. The session was handled by Dr.Aby Jimson, St.Stephen's College, Uthavoor. Dr.Saumya, HOD, Chemistry, SES and the faculties of Chemistry Department of both the colleges and Students of 3rd BSc Chemistry participated in the programme. Participants -68.

SOIL AND WATER ANALYSIS

CERTIFICATE COURSE (20 credits)

Paper-I-Soil-concept , composition , temperature, colour and physical properties (4 credits)

Concept of soil and its definition-components of soil-volume composition of soil mineral matter in soils-organic matter in soils-soil water-soil air- difference between surface soil and subsoil-soil profile-organic horizons-clayey horizons- illuvial horizons.

Classification of soil particles-characteristics of soil particles-physical nature of soil particles-mineralogical nature-soil texture-densities of soil-porosity of soil factors affecting soil porosity soil-structure classification-grades of soil structure- genesis of soil structure -evaluation of soil structure-index of soil structure-factors affecting soil-structure-influence of soil structure on physical properties

Sources of soil heat-loss of soil heat - factors influencing soil temperature- specific heat, heat capacity, thermal conductivity and thermal diffusivity-influence of soil temperature on plant growth and nutrition-management of soil temperature- soil colour kinds- factors affecting determination.

Paper-II Soil analysis

(4 credits)

Collection of soil samples from the field-Preparation of soil samples for analysis. Basic principles of analysis of water soluble, salts in soils-Estimation of total soluble salt-Estimation of carbonate and bicarbonate-Estimation of chloride-Estimation of sulphate-Estimation of Calcium-Estimation of magnesium Chapter 2- Soil pH and soil micro nutrients

Soil reaction-Soil acidity and alkalinity-problems of soil acidity-Reactions of acidic and alkaline soils-Management of acidic saline and alkaline soils -Determination of soil pH-colourimetric method-potentiometric method. Determination of soluble salt by conductivity method Impact of micronutrient on soil fertility-crop response to micronutrients-supply micronutrients.

Paper III – Water and soil water

(4 credits)

Importance of soil water-different forces of retention of water-heat of solution- soil water energy- concepts-methods of expression of soil water potential- pH scale- classification of soil water-physical-biological-factors affecting gravitational, capillary and hygroscopic water-factors affecting available water-management of soil moisture different methods-movement of soil water- saturated flow- unsaturated flow-factors affecting both- moisture calculations-loss of soil water and their management.

Hydrosphere, Hydrological cycle , Water Pollution – Sources, Dissolved oxygen in water, chemical oxygen demand (COD) and biochemical Oxygen demand(BOD)(Definition only)-control of water pollution- ISI/IS standards of drinking water.

Quality of Irrigation Water Criteria for evaluation of irrigation water- salinity hazard-sodium hazard-salt index bicarbonate hazard-boron concentration-chloride concentration-magnesium hazard-lithium calculations.

HEAD OF DEPARTMENT
ST. STEPHEN'S COLLEGE
MYSURU-570002

Collection of soil/water samples from various places

Estimation of soil- pH

Estimation of total soluble salts

Estimation of carbonate and bicarbonate

Estimation of chloride

Estimation of sulphate

Estimation of Calcium

Estimation of magnesium

Estimation of COD

Estimation of BOD

Determination of total hardness

Estimation of chloride estimation of sulphate

Estimation of fluoride

Estimation of copper

Estimation of iron
