## RUDSET VISIT

Visiting RUDSET Institute could be a great opportunity, depending on your interests and goals. RUDSET, or the Rural Development and Self Employment Training Institute, typically focuses on providing training and support for rural development and entrepreneurship. The department of economics has maintaining continuous association with RUDSET Institute. We have collaboration with the Institute for the last 10 years. This academic year our final year students visited the institute on 22-06-2023. Students attended orientation class there and visited the facilities.

## MILMA DIARY VISIT

Industrial visits are essential for students, particularly those in technical and vocational fields. Industrial visits provide students with firsthand experience of how industries operate, helping bridge the gap between theoretical knowledge and practical application. Students gain insights into production processes, workflow management, and the use of technology in real-world settings, enhancing their understanding of industry standards. Observing professionals in action helps students learn essential skills and best practices that are valuable in their future careers. Exposure to different industries allows students to explore various career paths, helping them make informed decisions about their future. Industrial visits often provide opportunities to interact with industry professionals, which can lead to mentorship, internships, and job placements.

As part of the industrial visit, our first year students visited the MILMA Malayora Diary, at Sreekandapuram on 22-11-2023. Students get first hand experience on the collection of raw milk, processing and packing of Milk and related products. A documentary regarding the profile of the industry has been shown to the students in the Mini theatre there. Students spent full day there watching the activities of the various departments and returned to the college in the evening.

## MIZONE VISIT

Visiting a start-up center can be highly relevant for economics graduates. It allows graduates to see how economic theories and principles apply in real-world scenarios, enhancing their understanding of market dynamics and business operations. Exposure to start-ups can spark entrepreneurial interest and provide insights into the challenges and opportunities of starting a business, fostering innovative thinking. Graduates can connect with entrepreneurs, investors, and industry professionals, which can lead to job opportunities, collaborations, and mentorship.

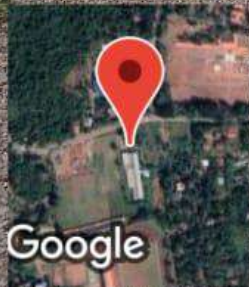

The department of economics organized a visit to 'Mizone', a start-up incubation centre, at Dharmashala, Kannur on 4-8-2023. 31 students from the second year class participated in the programme. Students visited the start-up companies working in the center and make one-to-one discussion with them. Students clarified their doubts with them and try to understand the challenges and potentials in starting a new company. The institute also arranged a seminar for the students on the challenges faced by start-up entrepreneurs. Students also clarified their doubts with the resource person.
